- * *All fees are subject to change in the event of significant fluctuations in the USD exchange rate.*

Microsoft Office Specialist
Program is the only official
Microsoft-recognized
certification program for
Microsoft Office globally.

Word Expert (Microsoft 365 Apps): Exam MO-111

The Microsoft Office Specialist: Word Expert Certification demonstrates competency in creating and managing professional documents for a variety of specialized purposes and situations. The exam covers the ability to customize Word environments to meet project needs, and to enhance productivity. Examples of expert-level documents include a business plan, a research paper, a book, a specialized brochure, and a mass mailing.

An individual earning this certification has approximately 150 hours of instruction and hands-on experience with the product, has proven competency at an industry expert-level and is ready to enter into the job market. They can demonstrate the correct application of the principal features of Word at an expert-level and can complete tasks independently.

Microsoft Office Specialist Program certification exams use a performance-based format testing a candidate's knowledge, skills and abilities using the Microsoft 365 Apps programs:

- Microsoft Office Specialist Program exam task instructions generally do not include the command name. For example, function names are avoided, and are replaced with descriptors. This means candidates must understand the purpose and common usage of the program functionality in order to successfully complete the tasks in each of the projects.
- The Microsoft Office Specialist Program exam format incorporates multiple projects as in the previous version, while using enhanced tools, functions, and features from the latest programs.

Skills Measured

- Manage Document Options and Settings
- Use Advanced Editing and Formatting Features
- Create Custom Document Elements
- Use Advanced Word Features

Microsoft Office Specialist Program is the only official Microsoft-recognized certification program for Microsoft Office globally.
